TECHNICAL DATA SHEET

Biokleen Degreaser

PACKING

4 x 4 L

ITEM#

#93

Descriptions:

Biokleen Degreaser is an alkaline, heavy duty, quaternary multi-application cleaner and detergent Biokleen Degreaser can be diluted pending on severity of cleaning task requirements.

Directions:

Low Pressure Spray or Brush Application:

For best results mix 1 part Ultra with 4 to 8 parts clean water. Spray or brush on the affected area. Allow to work for several minutes before rinsing with water.

Steam Cleaners & Pressure Washers:

For heavy build-up, dilute with 20-30 parts clean water. For lighter applications, use with 40-60 parts water. In all cases, rinse surface with clean water.

Product Data:

<u>Physical State:</u>	<u>Liquid</u>
<u>Liquid Density:</u>	<u>1.02 g/mL</u>
<u>PH:</u>	<u>13 @ 20°C</u>
<u>Vapour Pressure:</u>	<u>No Data Found</u>
<u>Boiling Point:</u>	<u>119°C</u>
<u>Freezing Point:</u>	<u>0°C</u>
<u>Solubility in Water:</u>	<u>100 %</u>
<u>Evaporation rate:</u>	<u>No Data Found</u>
<u>Odour and appearance:</u>	<u>Clear liquid with slight orange colour, there may be a slight cleaner odour above the open liquid</u>

Features & Benefits:

Accepted by the Canadian Food Inspection Agency. (CFIA)

Available in packing sizes. 4x4L,

WHMIS Classification: Class E, Corrosive Liquids

TDG Classification: CORROSIVE LIQUIDS, N.O.S. (sodium hydroxide) Class 8, UN 1760, III
