TECHNICAL DATA SHEET

Bleach - Sodium Hypochlorite, 6% Trade

Industrial Bleach

PACKING

4 x 4 L

ITEM#

19

Descriptions:

Liquid sanitizer and cleaner for use in a wide variety of cleaning tasks. It will remove stains and ensure bacteria free surfaces.

Physical Data:

| | |
|---------------------------------------|---|
| Description | Pale yellow liquid with characteristic faint chlorine odour |
| Specific Gravity (H ₂ O=1) | >1.070 |
| Freezing/Melting Point | -7.5°C |
| Molecular Formula | NaOCl |
| Molecular Weight | 74.44 |

Sales Specification:

Certified by NSF/ANSI Standard 60 for use in drinking water up to a maximum of 145 mg/L. Product is Kosher certified.

| | |
|---------------------|----------------|
| Available Chlorine | 59 g/L min. |
| Sodium Hypochlorite | 5.40% w/w min. |
| Sodium Hydroxide | 0.10% w/w min. |

Typical Analysis:

Please note that typical analysis values are for the product at the time of packaging. This product will decompose over time.

| | | | |
|---------------------|-----------|--------------------------|------------|
| Available Chlorine | 60 g/L | Water | 90.48% w/w |
| Sodium Hypochlorite | 5.84% w/w | Specific Gravity at 20°C | 1.08 |
| Sodium Hydroxide | 0.12% w/w | Chlorates | Trace |
| Sodium Chloride | 4.0% w/w | Metals | Trace |

Safety Note:

Read the Material Safety Data Sheet (MSDS) for special handling information.
