TECHNICAL DATA SHEET

Window Cleaner

Descriptions:

This is a top quality ammoniated window and glass cleaner with wetting and penetrating properties that reduce surface tension of hard and soft water to insure clean streak free glass surfaces. Ideal for use in institutional, commercial and food plant applications.

Use Directions:

It is designed to be used as is for cleaning windows in cold weather. (to -20°C) For use inside or above freezing temperatures, the product can be diluted up to 3 parts of water. Apply with a spray bottle, cloth or sponge. Wipe dry with clean cloth, paper towel or squeegee. For use on non-food contact surfaces only.

FOR COMMERCIAL USE ONLY
